Dear Customer...

Welcome to our all new Crown Metal catalogue. It contains our standard range of best selling wire mesh and tubular products, which we supply throughout the UK and Europe.

About Crown Metal....

Crown Metal is probably the most established and successful wire works in the UK. Established in 1989 by Derek Fleming, Crown Metal is an independant 'family run' business.

All products are manufactured at our factory in Manchester, England. No imports just true British manufacturing at its best. We rely on traditional methods that have been tried and tested over decades. Considering the volume of products which go through our factory we don't depend on expensive technical machinery to do our work, we prefer to employ the best method of manufacture...skilled craftsmen. Unlike computer driven machinery our highly skilled wire workers understand and appreciate the importance of quality and can add that little extra to your product. We only employ the very best welders and wire workers to suit the nature of our business. Most have been personally trained by the director himself, whose knowledge and experience is recognised throughout the industry as being unparalleled.

The success of our business has always been based on our commitment to quality, competitive pricing and excellent customer service. Because we control every aspect of the manufacturing process from start to finish, we can be very flexible with your requirements and always aim to meet your budget.

Don't see what you need?.....

Call us today and speak to an experienced member of staff who will go through all your specifications and requirements and come up with a solution to your storage, display or guarding issues.

By choosing Crown Metal as your supplier, you can be assured that we have the expertise and knowledge to produce that exclusive specialised product you need on time and within budget.

Welcome to Crown Metal Fabrications

Wire Mesh Lockers

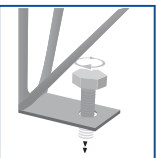

Sloping Top Option
Eliminate the possibility of items being stored and accumulation of debris on the top of the lockers.

Back & Side Brackets
Enable lockers to be nested together or fixed to a wall.

Hasp & Staple Locking
Suitable for the use of padlocks.
Padlocks sold separately.

150mm Integral Legs
Are fitted with brackets which allow the lockers to be securely bolted to the floor.

Lockers specification

- Manufactured from 25 x 25 x 2.5mm mild steel weldmesh on an 8mm round bar frame.
- All lockers come complete with fitted brackets to enable nesting side by side and back to back.
- All lockers are fitted with 150mm integral legs with the capability of fixing securely to the floor.
- All doors are fitted with Hasp & Staple for use with padlocks (sold separately).
- Single & two door lockers are fitted with Hasp & Staple and 3 point locking system.
- All lockers are available WITHOUT doors.

Midi Lockers
Available in 1, 2 & 4 door configurations

Midi Mesh Lockers are available in the following sizes

Approx O/A Dimensions	
1370mm high x 300mm wide x 305mm deep	Initial
1370mm high x 600mm wide x 305mm deep	Nest of 2

Wire Mesh Guards

Crown Metal Fabrications has a comprehensive knowledge of machine safety standards and HSE requirements. We have many years experience manufacturing guards exact to your specification and in accordance with your requirements. Our extensive experience enables us to provide the best quality and production standards around.

We are familiar with many different guard designs. If you are unsure of any aspect of your requirement, call today and have one of our specialist wire workers talk through the best options available to you.

Here are just some of the guards we manufacture.

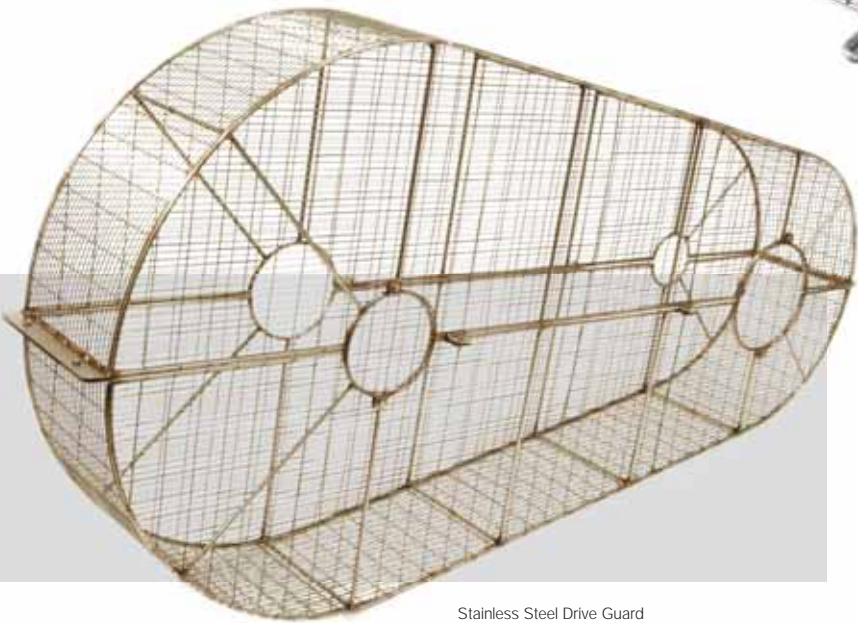

- Drive Guards
 - Inlet & Outlet Guards
 - Heater & Radiator Guards
- Anti-Spark Guards
 - Strut Guard
 - Window Guards
- Grilles
 - Lamp Guards

Black plastic coated guards

BZP Guards

Stainless Steel Drive Guard

Epoxy Coated Drive Guard

Materials

Mild Steel Stainless steel Brass

Weldmesh options

1" x 1"	2" x 2"	2" x 1/2"
1/2" x 1/2"	3" x 1/2"	7mm x 7mm

Different wire diameters available.

We offer various finishes for your products.

Hot Dip Galvanising

Can be used for outdoor items to preserve the product from rust.

Bright Zinc Passivate

A very popular finish. More attractive than Hot Dip Galvanising. Again can be used outside but depending on the level of moisture exposure the lifespan may not be as long. Top coat can be applied to enhance the life of the product and give increased corrosion resistance.

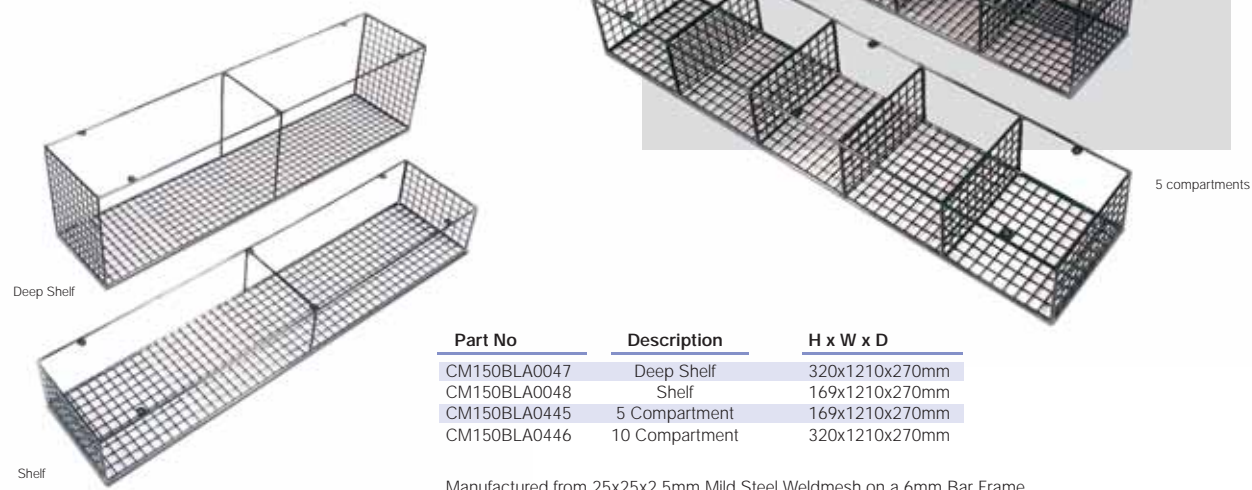

Epoxy Coated

A choice of colours available to personalise your product. Can powder coat to most RAL or BS references.

Plastic Coated

In house plastic coating is also a popular choice. A softer more durable finish available in a choice of colours.

Bespoke Fabrications

We understand the importance of sourcing the correct product for the job. Being flexible and taking a practical and experienced view of your requirement, we can offer you the absolute best advice and service which will exceed all your expectations.

Our objective is to fulfil your design criteria, produce bespoke products that are of good quality and production standards and most importantly ensure the product meets your exact requirements. Working closely together we can discuss all possible design options and specifications. Please note, minimum quantities may apply.

By choosing Crown Metal Fabrications you can be assured that your products will be manufactured by the most experienced and knowledgeable team of wire workers in the industry.

After Sales Services

We aim to make the ordering process as simple as we can, and as such value the close working relationships we have with our established clients. From initial order, through manufacturing to delivery, we pride ourselves on our ability to exceed our clients expectations and provide a first class service and product.

Should you need any advice on a particular project please feel free to call Crown Metal where we can advise you on your particular requirements.

Our experience in the industry means we can offer free advice on any project in the field of wire-mesh solutions, and you will receive the best service should the project go into production.

Nationwide

Once your order is complete we can deliver to anywhere in the UK, and even mainland Europe.

For lockers we offer a variety of delivery services, offering efficient and cost effective services, using our locally based affiliate transport companies.

For display items we use our own transport, providing the same reliable service that you have come to expect from Crown Metal Fabrications. Should you require any further details on our delivery options, please call us on **0161 688 7571**.

Please note: Minimum order value applies.

Terms & Conditions

Conditions of granting credit, accepted by applicant.
All invoices are net with VAT charged at the appropriate rate unless otherwise stated. Carriage is quoted for each individual order at the time of order unless otherwise agreed. Credit is granted only in accordance with any restrictions placed upon this account. Credit may be stopped if the account exceeds the agreed credit limit, or falls into arrears and further action may be taken at Crown Metal Fabrications Ltd discretion. It is understood that Crown Metal Fabrications Ltd may contact the referees provided for information and that the account may not be opened until satisfactory references have been received.

Delivery Dates
We will endeavour to deliver the goods within your requested time scale, but you acknowledge that it may not always be possible to deliver the goods and/or commence the services within this timeframe and you agree that delivery may take longer. Delivery dates are estimates only and we shall not be liable for any loss or damage resulting from any delay in delivery

Damages or Short Delivery
All goods must be examined before signing delivery document. If any item is damaged you must endorse the delivery document accordingly. Additionally you must advise us verbally within 24 hours and in writing within 3 days of receipt of goods. We will consider claims only if the above conditions are met. Please note a delivery note signed "Un-examined" or of a similar meaning is not an acceptable base for a claim.

Policy
Our policy is one of continuous improvement and such we reserve the right to amend, vary or alter any design and /or specification without prior notification, if in the opinion of Crown Metal Fabrications Ltd such changes will in no way detract the product from it's original function or purpose.

Returns
Crown Metal Fabrications Ltd manufactures all products to order only. No stock is held on any lines produced by Crown Metal Fabrications Ltd. Therefore returns are not accepted unless agreed otherwise by Crown Metal Fabrications Ltd solely at their discretion. This does not affect your statutory rights.

Terms
Payment against a Pro-Forma will be required, until a credit account has been approved. Terms for the credit account are strictly 30 days nett from end of month.

Title of Goods covered by the invoice issued upon sale remain the property of this company until paid for in full. We reserve the right to repos from yourselves or any receiver or liquidator in the event of non payment within our terms and conditions.
